

LET THE PREHISTORIC ADVENTURE BEGIN ...

Designed to thrill and enlighten children and adults alike, our stunning five-coin Prehistoric Life: Back from the Dead series brings the magnificent creatures that once roamed Europe back from extinction.

Developed in collaboration with the Natural History Museum Vienna, where the fossilised remains of the dinosaurs and early mammals featured on the coins are currently on display, the series spans the last quarter of a billion years in our planet's existence.

From the Triassic to the Quaternary, each Proof quality silver coin highlights evolutionary milestones from five geologic periods. Linking these chronologically, all five coins also features a timeline that gives the series a sense of continuity and guarantees collectors will be keen to complete this fascinating collection.

A gateway to the fascinating and frightening world of prehistoric monsters, our free augmented reality App provides in-depth background information and brings the long-extinct creatures back to life in moving images that are bound to delight coin collectors of all ages.

Downloadable entirely free of charge, our purpose-built augmented reality App is the gateway to the fascinating and frightening world of prehistoric monsters. By simply pressing its Info button you can not only discover more detailed scientific information but also see stunning moving images, in both in skeletal and fleshy form, that bring the dinosaurs featured on the coins back to life before your eyes. To download and activate the App just follow the simple steps below.

Are you ready? Then let the prehistoric adventure begin ...

1. On your smartphone or tablet open our homepage www.muenzeoesterreich.at/urzeit/eng and click on the link to download our free augmented reality App.

Download the App even faster by scanning this QR-Code. QR-Code readers are available on the App store

2. As soon as the App is fully downloaded click on it to start the feature.

Prehistoric Life App (Urzeit App)

3. Off we go! Hold the screen of your device over one of the designated images in the accompanying documentation to the series (certificate, info brochure, collector packaging and series adverts). The coins themselves do not work as their surface is too shiny.

All images showing this symbol activate the augmented reality App.

PREHISTORIC LIFE: BACK FROM THE DEAD

4. The dinosaur will come alive right on your screen. You can see it in 3D from all angles but only tilt your device gently, both horizontally and vertically.

5. To see how the dinosaur moves majestically around the room just give it a tap. But be careful because it can also roar really loud!

6. To see its skeleton simply press the corresponding button in the field below.

7. To find out about its habits and lifestyle simply press the Info button to get all the hard facts.

The Exit button takes you straight back to the Austrian Mint homepage.

We are convinced that you and your customers will enjoy our exciting purpose-built augmented reality App.
