WELCOME TO SALE 336

Welcome to Downies Australian Coin Auctions Sale 336!

As with so many businesses, and the Australian community in general, the COVID-19 pandemic has presented Downies with many challenges – specifically, in preparing Sale 336. The health and safety of our employees and our clients is paramount, and we have worked very hard to both safeguard the welfare of all and create an auction of which we can be proud. As a consequence, we have had to make unprecedented modifications to the way Sale 336 will be run.

For example, the sale will be held without room participation. We will miss the presence of our collectors, but we have no doubt that our ever-reliable Live Auction Platform will comfortably accommodate the extra number of internet bidders. There will be no pre-sale viewing available – the first time in 300 or so Downies auctions – but the images found in this catalogue and on our website are first rate. In addition, although buyers will not be able to pick up their lots, we have worked with our logistics partners to ensure that all purchases will be delivered in a safe, timely manner. Absentee bids will naturally be processed as usual, but do not delay in getting your bids in.

The changes made as a result of COVID-19 should not, however, distract us from what is sure to be a landmark event. Headlined by a complete British 1937 Gold Proof Set, the auction is notable for the most comprehensive RAM and Perth Mint offering amassed in years. Comprising over 3,500 lots, and defined by a dramatic diversity of material, there will be something for everybody in Sale 336.

Enjoy your collecting!

ADVICE

FOR ABSENTEE & NEW BIDDERS

- As a bidder at our Public Auction, you will be able to decide the level at which you would like to purchase an item. To assist bidders in the preparation of their bids, the Auctioneer has set an "estimated market price" on each lot. This is a conservative guide to the market value of the items described, and you may bid above or below this estimate. Please note however, that bids below 60% of this estimate will not be processed.
- Purchase of lots on extension (extended payment terms) will NOT be permitted
- Our descriptions are complete and our grading is conservative. Our aim is to give you the best possible guide to the actual condition of the item you are seeking. We value our absentee bidders and believe that our grading and pricing policies work to the mutual long term benefit of both the vendor and buyer.
- Your bids will be executed in the strictest confidence by an official representative of the Company. They will be regarded as the maximum bids that you are prepared to pay and we will always try to purchase on your behalf at a price lower than your maximum bids given.
- On items that you anticipate the price may far exceed the estimate, we can offer you some flexibility in the execution of your bid. Obviously, you may submit a bid well above the estimate and this will be treated as your maximum bid (excluding the buyer's commission). Alternatively, you can place a conservative bid and, if the bidding far exceeds it, you can elect to increase that bid by a fixed percentage. The higher bid will only be executed if necessary, and strictly according to your instructions. Please fill in the appropriate space on the bid sheet if this is required.
- If you are interested in a number of lots, but only wish to spend a limited amount of money, please write down your bids and then clearly indicate, in the space provided, the maximum amount you wish to spend.
- If you are interested in a particular item, and there are two or more identical lots; you can clearly indicate on your bid sheet that you wish to bid for "one or more only" of the nominated lots on offer. This must be made very clear on the bid sheet.
- Remember, the benefit is yours by buying at Public Auction: you can decide exactly what you want to pay for any item, and bid to that level.
- In preparing your bids, it is important to note that a 22.0% buyer's commission including GST with a minimum charge per lot of \$10, is added to the knock down price of each lot. Do not add commission to your maximum bid.

Remember that successful absentee bids at the same level will be awarded to the earliest bidder at that level – so bid early!
And please note that bids submitted by normal mail may be affected by recent Australia Post delivery policy changes.

Gradings and terminology used in this catalogue

Proof: Proof coins are the most beautiful coins imaginable. They are struck using specially hardened dies, and highly polished blanks. The result is a coin of great clarity and depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

Prooflike: Often a non-official mint strike, or medallic in nature.

Brilliant Uncirculated (B/Unc) or choice Unc: Uncirculated, but with higher than normal sheen.

Uncirculated (Unc): An uncirculated or unused item. Full detail, no wear, brilliance and lustre are hallmarks of an uncirculated coin, whereas no bends, folds or staining are qualities of an uncirculated banknote.

Extremely Fine (EF): Coins show only traces of wear to the high points of the design and only light surface marks from circulating. Otherwise the design is clear and sharp and the coin will have much lustre. Notes are clean and crisp with only the slightest signs of creases and folds.

Very Fine (VF): Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

Fine (F): The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will

have clear signs of soiling and heavy creasing, possibly also some tearing.

Very Good (VG): Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life, and are of little value unless they are very scarce or rare.

choice: An exceptional example of the given grade.

good (g): Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

about (a): Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

Payment Terms

10. Title of purchased lots shall not pass until the purchase price and buyer's expenses are paid in full with cleared funds in **Australian Dollars**. Overseas buyers not using credit card or Paypal facilities will be required to add AUD \$30 to payments to cover bank charges; this will appear on the buyer's invoice.

Purchaser Responsibilities

11. The buyer of each lot is to be responsible for it from the time it is "knocked down". Payment is to be made in full with cleared funds before delivery or collection. The lot(s) are to be paid for by Australian buyers within two days of receiving the invoice, and by overseas buyers within 7 days of receiving the invoice. **A service charge of 2% per month will be added to all overdue accounts.** Failure to pay in full within the specified time also entitles the Auctioneer to re-sell the lots, with any resulting deficiency being made good by the defaulter.

Delivery/Collection of Lots

12. No lots will be delivered to buyers without payment in full. Lots purchased will be forwarded, fully insured, by the most practical method at the risk of the purchaser who shall bear **all costs** incurred. No lots will be delivered during the Auction.

Bidders may vary these delivery methods, but at their own risk. Such alterations must be advised in advance.

General

13. Each lot is sold as genuine and correctly described. Unless described, all official packaging and relevant certificates are presented within the lot. The purchaser is at liberty to return the lot by giving written notice with seven days (or in the case of overseas buyers, within 14 days) of the sale, if he/she proves that the lot is not genuine or not correctly described. The onus on proving a lot to be not genuine lies with the purchaser. Proof of the inability of a recognised expert to express a definite opinion will not discharge this onus.
14. Watches, instruments and devices with working mechanisms are verified to be accurately described. Whilst every care is taken to provide secure packaging for all items in transit, no responsibility may be assigned to the Auctioneer for lots which are described as being 'in working order' but are found to be not working at time of receipt. Such lots are sold "as is" and are not subject to return.
15. No lot is to be rejected if subsequent to the sale it has been removed from its sealed holder and/or has been treated by any process, unless the Auctioneer's permission to subject the lot to such treatment has first been obtained in writing.
16. No lot is to be rejected if the purchaser or their agent has inspected the lot prior to the sale, irrespective of whether or not any item or items are incorrectly described.
17. Failure on the part of the bidder or purchaser to comply with the conditions stated previously, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots may be re-sold by public or private sale and any resultant deficiency shall be made good by the defaulter.
18. Bids from minors will not be accepted unless accompanied by a full cash deposit or suitable guarantee.
19. Phone bids are most welcome but must be confirmed in writing well before the sale.
