WELCOME TO SALE 337

Welcome to Downies Australian Coin Auctions Sale 337!

Although we live in uncertain times, with no one left unaffected by the consequences of the recent pandemic, one thing is certain – the buoyancy of the numismatic market! Collectors have adapted swiftly to the current circumstances, with our Live Auction Platform proving a great success. In Sale 337, we will once again be relying on the wonders of the digital world, as restrictions mean that our third sale of 2020 is online only.

Placing the emphasis squarely on 'quality over quantity', we have painstakingly streamlined Sale 337. More than 2,000 lots will go under the hammer, highlighted by a veritable feast of gold. The sale features over 350 sovereigns, more than seventy half sovereigns, a dozen RAM \$200 gold coins, and a phenomenal FOUR examples of the 1852 Adelaide Pound. With COVID-19 seeing fierce demand for gold in all forms – the gold price has soared to US\$1,800 an ounce, whilst share markets remain volatile – Sale 337 is sure to attract a great deal of attention.

Defined by a great diversity of material, as always, the sale also features Star & Specimen notes, decimals, world coins & notes, ephemera – as well as some truly breathtaking predecimals. Known by three examples, the 1914H Florin Specimen (estimate \$75,000) is an Australian rarity of the greatest importance, whilst the 1926 Threepence Proof (estimate \$20,000) is one of only three known.

I hope you enjoy reviewing the tremendous array of material in Sale 337 and, don't forget, if you want to consign material to Sale 338, contact us now!

Enjoy your collecting!

ADVICE

FOR ABSENTEE & NEW BIDDERS

- As a bidder at our Public Auction, you will be able to decide the level at which you would like to purchase an item. To assist bidders in the preparation of their bids, the Auctioneer has set an "estimated market price" on each lot. This is a conservative guide to the market value of the items described, and you may bid above or below this estimate. Please note however, that bids below 60% of this estimate will not be processed.
- Purchase of lots on extension (extended payment terms) will NOT be permitted
- Our descriptions are complete and our grading is conservative. Our aim is to give you the best possible guide to the actual condition of the item you are seeking. We value our absentee bidders and believe that our grading and pricing policies work to the mutual long term benefit of both the vendor and buyer.
- Your bids will be executed in the strictest confidence by an official representative of the Company. They will be regarded as the maximum bids that you are prepared to pay and we will always try to purchase on your behalf at a price lower than your maximum bids given.
- On items that you anticipate the price may far exceed the estimate, we can offer you some flexibility in the execution of your bid. Obviously, you may submit a bid well above the estimate and this will be treated as your maximum bid (excluding the buyer's commission). Alternatively, you can place a conservative bid and, if the bidding far exceeds it, you can elect to increase that bid by a fixed percentage. The higher bid will only be executed if necessary, and strictly according to your instructions. Please fill in the appropriate space on the bid sheet if this is required.
- If you are interested in a number of lots, but only wish to spend a limited amount of money, please write down your bids and then clearly indicate, in the space provided, the maximum amount you wish to spend.
- If you are interested in a particular item, and there are two or more identical lots; you can clearly indicate on your bid sheet that you wish to bid for "one or more only" of the nominated lots on offer. This must be made very clear on the bid sheet.
- Remember, the benefit is yours by buying at Public Auction: you can decide exactly what you want to pay for any item, and bid to that level.
- In preparing your bids, it is important to note that a 22.0% buyer's commission including GST with a minimum charge per lot of \$10, is added to the knock down price of each lot. Do not add commission to your maximum bid.

Remember that successful absentee bids at the same level will be awarded to the earliest bidder at that level – so bid early!
And please note that bids submitted by normal mail may be affected by recent Australia Post delivery policy changes.

Gradings and terminology used in this catalogue

Proof: Proof coins are the most beautiful coins imaginable. They are struck using specially hardened dies, and highly polished blanks. The result is a coin of great clarity and depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

Prooflike: Often a non-official mint strike, or medallion in nature.

Brilliant Uncirculated (B/Unc) or choice Unc: Uncirculated, but with higher than normal sheen.

Uncirculated (Unc): An uncirculated or unused item. Full detail, no wear, brilliance and lustre are hallmarks of an uncirculated coin, whereas no bends, folds or staining are qualities of an uncirculated banknote.

Extremely Fine (EF): Coins show only traces of wear to the high points of the design and only light surface marks from circulating. Otherwise the design is clear and sharp and the coin will have much lustre. Notes are clean and crisp with only the slightest signs of creases and folds.

Very Fine (VF): Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

Fine (F): The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will

have clear signs of soiling and heavy creasing, possibly also some tearing.

Very Good (VG): Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life, and are of little value unless they are very scarce or rare.

choice: An exceptional example of the given grade.

good (g): Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

about (a): Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

11. The buyer of each lot is to be responsible for it from the time it is "knocked down". Payment is to be made in full with cleared funds before delivery or collection. The lot(s) are to be paid for by Australian buyers within two days of receiving the invoice, and by overseas buyers within 7 days of receiving the invoice. **A service charge of 2% per month will be added to all overdue accounts.** Failure to pay in full within the specified time also entitles the Auctioneer to re-sell the lots, with any resulting deficiency being made good by the defaulter.

Delivery/Collection of Lots

12. No lots will be delivered to buyers without payment in full. Lots purchased will be forwarded, fully insured, by the most practical method at the risk of the purchaser who shall bear **all costs** incurred. No lots will be delivered during the Auction.

Bidders may vary these delivery methods, but at their own risk. Such alterations must be advised in advance.

General

13. Each lot is sold as genuine and correctly described. Unless described, all official packaging and relevant certificates are presented within the lot. The purchaser is at liberty to return the lot by giving written notice with seven days (or in the case of overseas buyers, within 14 days) of the sale, if he/she proves that the lot is not genuine or not correctly described. The onus on proving a lot to be not genuine lies with the purchaser. Proof of the inability of a recognised expert to express a definite opinion will not discharge this onus.
14. Watches, instruments and devices with working mechanisms are verified to be accurately described. Whilst every care is taken to provide secure packaging for all items in transit, no responsibility may be assigned to the Auctioneer for lots which are described as being 'in working order' but are found to be not working at time of receipt. Such lots are sold "as is" and are not subject to return.
15. No lot is to be rejected if subsequent to the sale it has been removed from its sealed holder and/or has been treated by any process, unless the Auctioneer's permission to subject the lot to such treatment has first been obtained in writing.
16. No lot is to be rejected if the purchaser or their agent has inspected the lot prior to the sale, irrespective of whether or not any item or items are incorrectly described.
17. Failure on the part of the bidder or purchaser to comply with the conditions stated previously, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots may be re-sold by public or private sale and any resultant deficiency shall be made good by the defaulter.
18. Bids from minors will not be accepted unless accompanied by a full cash deposit or suitable guarantee.
19. Phone bids are most welcome but must be confirmed in writing well before the sale.

Viewing

20. In view of the renewed lockdown in Victoria and border restrictions in place owing the Covid-19 pandemic, it is expected that no viewing will be possible for this sale. Please refer to our website for latest information.

The recipient's name appears in Sydney Morning Herald articles of 1930 and 1931 acknowledging his prowess at long distance events. MacKenzie, of Western Suburbs Athletics Club, won the State Cross-Country Title in 1922 and was further successful in 1928, 1929 and 1930. The 1930 title goes hand-in-hand with his wins in the other two long distance championships of that year. In 1931, when he ran fourth in the cross-country championship, he was appointed captain of the NSW team for the biennial Australian Championships in Brisbane that year *Est. \$75*

John Charles "Johnny" Bliss (born Chinchilla Qld 30th Aug 1922, died Warriewood NSW 9th Sept 1974) was a prominent beach sprinter in the surf lifesaving fraternity (touted by some as the greatest of all time) who also had a successful career as a rugby league footballer
He joined the North Narrabeen Surf Life Saving Club in the 1935-36 season and quickly displayed his ability as a beach sprinter, his first intra-club title recorded in 1937-38, the year he also gained his bronze medallion. His imposing record included innumerable NSW titles in open beach sprints and beach relays (one source states that he won 12 individual titles in a row from 1940 to 1952, and records show other titles up to and including 1965-66). His national titles included open beach sprint 1945-46 to 1952-53 (4) and open beach relay 1952-53 to 1963-64 (4). His last appearance at national level was in 1964-65 when he was approaching 43 years of age, and his record would likely be more significant if not for the suspension of Australian championships during the war years, rugby league and professional running commitments. Even at the time of his retirement he was one of very few who could beat the national champion - fatigue from training being his only Achilles heel. He earned a Surf Life Saving Assn 25 year long service award in the 1964-65 season
His rugby league record as a winger is also impressive, having played for Balmain (15 games), North Sydney (35 games) and Manly-Warringah (71 games) from 1942 to 1953, also representing NSW City Firsts (4), NSW (6) and Australia once. During his rugby league career he earned the nickname "Blistering"
He died from the effects of a brain tumour at the age of 52 *Est. \$125*
